

Description

Complete Electrical submersible borehole pump, for pumping non-aggressive water without solid particles, all materials approved for use with drinking water.

The motor is expected to be of maximum 7.5 kW.

The embedded stator winding in the submersible motor is hermetically enclosed in stainless steel.

Built-in protection device dry running, including level relay electrodes.

Complete with motor cable.

The pump is provided with a priming screw, top non-return valve, bottom inlet strainer and water lubricated bearings.

The standard pump is directly coupled and equipped with a 3-phase submersible motor, suitable for power supply of 380 V/400 V - 50 Hz - 3-phase.
