

Description

Ball type valve for water distribution pipelines.

Used for either starting or stopping flow, and also suitable for regulating (or throttling) speed of flow.

Lever action.

Nominal diameters of pipes: 15 mm/1/2".

Free flowing and quick acting ball valves are inert to a wide range of corrosive media, and will not contaminate fluids.

Maximum pressure rating: 10 bar (150 lb/sq inch) at 20°C.
